

VERIFIED DELIVERY SOLUTIONS

ANY PRODUCT

ANY SERVICE

ANYWHERE

ANYTIME

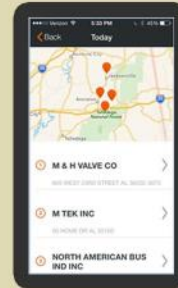

Now is the time to move from an old-fashioned paper delivery slip to a full digital receipt that includes the precise details of the products or services delivered.

HOW IT WORKS

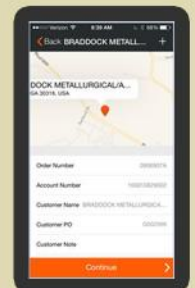

- **Download** daily delivery list to the Driver's smart phone/tablet
- **Map all** scheduled deliveries
- **Electronic delivery slip** with a digital signature
- **Attach pictures and voice memos** to the delivery slip
- **Email the delivery slip and invoice** to your Customer with a link for them to pay their invoice using PayClix®
- **Record ad-hoc retail sales right** on the delivery slip
- **Print COD invoices** with an in-cab printer
- **Integrates** with virtually all ERP systems
- **Multiple real-time online reports**
 - ▶ Vehicle tracking and delivery status
 - ▶ Product availability
 - ▶ Completed and open deliveries
 - ▶ Back-order recording
- **Runs on all iOS and Android** smart phones and tablets

1 Select the Vehicle and the Driver.

2 Today's Scheduled Deliveries.

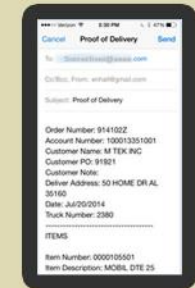

3 A Single Customer's Order.

4 Enter the quantity delivered or create an ad-hoc retail sale.

5 In addition to a facsimile signature, a digital photo or a voice memo can be attached to the delivery slip.

6 A copy of the delivery slip is sent by email to the Company and the Customer.

PRICING

We offer pricing options to suit ANY business. Contact your Mobius sales rep for a detailed price quote or to test drive our full-function MobiusPoD demo.
